25X1A	Comment, No other information has been received on plans to move the Secolizei school to Daenholm Island off Stralsund. A new Secolizei unit may be activated there. Indications on the establish-	
25X1A	ment of Luftpolizei (Air Police) units have been vague so far. A previous report stated that a VP ammunition dump was to be established	
25X1	in Parow. Comment. A marine school for civilian shipping of the German	
	personnel were detached to the school is probably true, inasmuch as personnel were detached to the school is probably true, inasmuch as seepolized and the poviet Jone fishing fleet are being equipped with the seepolized and the produced in great numbers.
